## ARMING FOR PEACE®

### Sea Domain Competencies

ColDef is a leading supply chain management company delivering long-term, end-to-end solutions for defense and commercial marine sectors. Our comprehensive services include supply chain management, engine lifecycle management, ratable and repair management, manufacturing, and advanced kitting solutions. Leveraging our collaborator's proprietary Defense Logistics Management System (DLMS®), we mitigate supply chain risks and deliver high-quality, cost-effective solutions tailored to your mission-critical needs.

We proudly support commercial and military vessels of all types, including:

- Combat, cargo, and support vessels
- Prepositioned afloat (RAS)
- Transport and tanker vessels

### Core Competencies

#### Supply and Consumable Management

The DLMS® enables us to efficiently analyze and rebuild supply chains for diverse Bills of Materials (BOM). We proactively identify and monitor risks, address supply gaps, manage intricate logistics, and shorten implementation times—ensuring your operational readiness is never compromised.

#### Integrated Supply Chain Optimization

With the DLMS®, we rapidly analyze and reconstruct supply chains, proactively mitigate risks, close supply gaps, manage complex logistics, and reduce implementation timelines. Our approach ensures seamless, resilient, and agile supply chain operations.

#### Holistic Ratable Lifecycle Management

## ARMING FOR PEACE®

Utilizing our global logistics and export compliance expertise, we provide comprehensive ratable management services—supporting equipment pool rotation, sustainment, obsolescence management, and heavy equipment asset supply. We also support navigational equipment, communications, weapon systems, and targeting systems through a network of quality-approved, certified repair partners.

### **Hazmat and Specialty Chemical Management**

We specialize in reliable supply chains for a wide range of hazardous materials and specialty chemicals. Our expertise covers manufacturing chemicals, specialty adhesives, cleaning agents, specialty coatings, metal/plastic/carbon preparation, lubricants, curing agents, and additives—ensuring safety, compliance, and performance.

### **Eco-Conscious Kitting Services**

Our eco-friendly, fully traceable kitting solutions support new production, assembly, MRO, tooling, modifications, chemicals, surface preparation, and re-racking. Customized kits optimize costs, reduce supply chain disruptions, and promote sustainability across your operations.

### **Acquisition Modernization**

The DLMS® is a proprietary suite of technologies that delivers real-time supply chain risk intelligence, decision advantage, predictive pricing analytics, product availability, forecasting analytics, and obsolescence mitigation. By integrating government, industry, and proprietary data, the DLMS® provides a global view of any BOM—empowering you with actionable insights.

### **Key Differentiators**

- **Embedded Export Compliance:** Seamless integration of military labeling, packaging, and strict compliance with ITAR, DFAR, and DPM regulations.
- **Military & Commercial Expertise:** Proven track record supporting both defense and commercial sectors with tailored solutions.
- **Global Reach:** Extensive experience managing complex, international supply chains.
- **Sustainability Focus:** Eco-conscious practices and full lot traceability in all kitting services.

### **We support following NAICS Codes**

NAICS Code	Description
325510	Paint and Coating Manufacturing
325520	Adhesive Manufacturing
332510	Hardware Manufacturing
332722	Bolt, Nut, Screw, Rivet, and Washer Manufacturing
333613	Mechanical Power Transmission Equipment Manufacturing
333618	Other Engine Equipment Manufacturing
339991	Gasket, Packing, and Sealing Device Manufacturing
561210	Facilities Support Services
